(234) 296-2812 • Kent, OH • mholovaty@icloud.com • <https://mlholovaty.github.io>

## Education

### Doctor of Philosophy

Kent State University • Kent, OH

### Aerospace Engineering

Expected: Spring 2030

GPA: 4.0/4.0

### Master of Science

Kent State University • Kent, OH

### Aerospace Engineering

Expected: Fall 2027

GPA: 4.0/4.0

### Bachelor of Science

Kent State University • Kent, OH

### Aerospace Engineering

Spring 2026

GPA: 3.75/4.0

## Professional Experience

### Operation Assistant

Jan 2026-May 2026

Aviation Components Solutions • Cleveland, OH

- Assembled cryogenic nozzles, shrouds and receptors for aircraft refueling systems using engineering drawings as primary guidance, ensuring pressure-test standards with zero leakage.
- Collaborated with the engineering team to streamline cryogenic component assembly and documentation process, improving precision assembly and quality assurance testing.
- Partnered with the quality inspection team to ensure all aviation parts conformed strictly to FAA PMA requirements through proper packing, labeling, and storage.
- Optimized warehouse space and inventory management processes to enhance storage efficiency.

### Student Assistant

Aug 2025-Dec 2025

Kent State University • Kent, OH

- Coordinated event logistics and outreach operations for the College of Aeronautics and Engineering.
- Provided academic support and peer tutoring through the Academic Success Center.
- Assisted faculty with course administration and grading Statics coursework.

### Summer Student Assistant

Summer 2025

Kent State University • Kent, OH

- Facilitated international exchange logistics for visiting students and faculty from the American Academy in Brazil.
- Provided English to Portuguese translation and administrative support to facilitate cross-cultural communication
- Guided visiting scholars across campus facilities and managed event transportation and scheduling.

### Peer Academic Advisor

Jan 2023-May 2025

Kent State University • Kent, OH

- Collaborated with advisors to resolve issues related to the Kent Core curriculum in the College of Aeronautics and Engineering.
- Advised undergraduate students on Kent Core curriculum requirements within the College of Aeronautics and Engineering.
- Engineered an automated tool to streamline administrative tasks, automating student profile updates and transfer credit evaluations.

(234) 296-2812 • Kent, OH • mholovaty@icloud.com • <https://mlholovaty.github.io>

## Relevant Experience

### Summer Undergraduate Research Experience

Jun 2025-May 2026

Kent State University • Kent, OH

- Developed an electrification roadmap for Great Lakes regional aviation utilizing Pipistrel Velis Electro aircraft performance models.
- Modeled and optimized electric aircraft route planning to evaluate operational feasibility and regional transit infrastructure.
- Conducted computational research and custom programming to model emerging electric aviation technologies.

### Semiconductor and Cleanroom

Summer 2024

Kent State University • Kent, OH

- Completed hands-on training in semiconductor fabrication processes and cleanroom operations as part of Ohio's Intel expansion initiative.
- Applied microelectronics fabrication principles and cleanroom protocols in a practical setting alongside industry professionals.

## Extra-Curricular Activity

### Kent State High Powered Rocket Team

Jan 2023-Present

Senior Propulsion Engineer • Kent State University • Kent, OH

- Formulated custom solid propellants and designed proprietary motor systems for competitive high-powered rocketry.
- Conducted static fire test burns and flight launches to log pressure and thrust data for motor performance characterization.
- Co-engineered a high-powered rocket targeting 10,000 ft at the International Rocket Engineering Competition (IREC), achieving 9,600 ft altitude.
- Managed team operations during competition, coordinating task delegation and timeline execution.

## Publications

### Optimization of Electrified Aviation Hubs to Enable New Air Transportation Architectures for Connecting Great Lakes Communities

Jun 2026

American Institute of Aeronautics and Astronautics (AIAA) • Kent, OH

- Presented research findings at the AIAA Region III conference
- Published paper in the AIAA Aerospace Research Center repository (DOI: 10.2514/6.2026-115256).

## Awards

- First Place at Kent State Undergraduate Research Symposium
- SME Prof. George Schneider Scholarship (2024–2025 & 2025–2026)
- Dean's List (6 semesters) & President's List (Fall 2022)
- Associate of Science Degree with Distinction
- Nominee, First Leadership Award Irmão Clemente Ivo Juliatto (PUCPR)

## Skills

- **CAD & Simulation:** SolidWorks, Autodesk CAD, Ansys Workbench FEA, LightBurn Pro
- **Programming & Computational Tools:** MATLAB, Python, Java
- **Manufacturing & Hardware:** Cleanroom Operations, Precision Assembly, Materials & Processing (Welding, Forging, Casting)
- **Languages:** Native in Brazilian Portuguese, Fluent in English
