

Mateus Lampe Holovaty

(234) 296-2812 • Kent, OH • mholovaty@icloud.com • <https://mlholovaty.github.io>

Education

Bachelor of Science

Kent State University • Kent, OH

Aerospace Engineering

Expected: Spring 2026

GPA: 3.75/4.0

Master of Science

Kent State University • Kent, OH

Aerospace Engineering

Expected: Spring 2028

GPA: 4.0/4.0

Professional Experience

Operation Assistant

Jan 2026-May 2026

Aviation Components Solutions • Cleveland, OH

- Assembled cryogenic nozzles, shrouds and receptors for aircraft refueling systems using engineering drawings as primary guidance, ensuring pressure-test standards with zero leakage.
- Collaborated with the engineering team to streamline cryogenic component assembly and documentation process, gaining hands-on experience in precision assembly, drawing interpretation and quality assurance testing.
- Collaborated with the quality inspection team to ensure aviation parts correspond to the FAA PMA requirements, by correct packing, labeling and storing.
- Gained hands-on experience in stocking management and organization to optimize storage.

Student Assistant

Aug 2025-Dec 2025

Kent State University • Kent, OH

- Helped the College of Aeronautics and Engineering with events.
- Helped students with the academic success center.
- Assisted professor on Statics homework grading.

Summer Student Assistant

Summer 2025

Kent State University • Kent, OH

- Helped the Office of Global Education with managing and coordinating the student and faculty visitors from American Academy from Brazil.
- Helped faculty with English translation and understanding.
- Helped the student visitors to navigate through Kent State.
- Helped with event logistics.

Peer Academic Advisor

Jan 2023-May 2025

Kent State University • Kent, OH

- Collaborated with advisors and students to resolve issues related to the Kent Core curriculum in the College of Aeronautics and Engineering at Kent State
- Engineered a robot to automate the addition of student notes to profiles and to extract transfer courses from other universities, improving the efficiency of administrative tasks

Relevant Experience

Semiconductor and Cleanroom

Summer 2024

Kent State University • Kent, OH

- Participated in a semiconductor manufacturing program as part of Kent State's involvement in the Intel expansion to Ohio.
- Acquired hands-on experience in semiconductor fabrication processes and cleanroom operations.

Mateus Lampe Holovaty

(234) 296-2812 • Kent, OH • mholovaty@icloud.com • <https://mlholovaty.github.io>

- Engaged with industry professionals, including Intel, to apply theoretical knowledge in a practical setting.

Summer Undergraduate Research Experience

Jun 2025-May 2026

Kent State University • Kent, OH

- Participated in the Summer Undergraduate Research Experience (SURE).
- Researched electric aircraft route planning and optimization.
- Acquired experience in practical research and programming.
- Created a road map for electrifying regional aviation using Pipstrel Velis Electro training aircraft.
- Studied to implement on the Great Lakes region.
- Expanding for upcoming electric aircraft technologies.

Extra-Curricular Activity

Kent State High Powered Rocket Team – Senior Propulsion Leader

Jan 2023-Present

Kent State University • Kent, OH

- Kent State High Powered Rocketry Club and Team focus on the design and building of a high-powered rocket.
- With the focus on reaching 10,000 feet on the International Rocket Engineering Competition
- Successfully achieved a rocket altitude of 11,341 feet, placing 14th overall in the competition.
- Researched and developed proprietary motor systems, including manufacturing custom propellants.
- Organized test burns and launches for data collection and refinement of rocket performance.
- Managed competition team during event distributing tasks and managing competition details

Publications

Optimization of Electrified Aviation Hubs to Enable New Air Transportation Architectures for Connecting Great Lakes Communities

Jun 2026

American Institute of Aeronautics and Astronautics (AIAA) • Kent, OH

- Presented the research at the AIAA Region III conference
- Published it on the AIAA Aerospace Research Center at <https://doi.org/10.2514/6.2026-115256>

Awards

- First Place at Kent State Undergraduate Research Symposium
- Dean's List (6 semesters)
- President's List (Fall 2022)
- Associate of Science Degree with Distinction
- Nominated to the First Leadership Award Irmão Clemente Ivo Juliatto at PUCPR
- 2024-2025 Prof George Schneider Scholarship from the Society of Manufacturing Engineers (SME)
- 2025-2026 Prof George Schneider Scholarship from the Society of Manufacturing Engineers (SME)

Skills

- | | |
|--|-----------------------|
| • Auto-Desk CAD | • Java |
| • Materials and Process Machines (Welding, Forging, Casting, etc.) | • Python |
| • Native in Brazilian Portuguese | • SolidWorks CAD |
| • MatLab | • LightBurn Pro |
| | • Ansys Workbench FEA |
